

August 8th, 2011

The Canadian Investment Funds Standards Committee (CIFSC) has completed a review of the **Science & Technology Equity** category and has made the decision to remove the category.

Data providers will implement the change at the earliest, with the release of August month-end data, to be reflected in early September. At that time, funds currently in the Science & Technology Equity category will be placed in the most appropriate category as determined by the committee.
