RE: Category Change Announcement

The CIFSC continuously monitors and analyses the categorization of funds, the current category definitions and structures, as well as any new and developing trends in the investment funds industry. The purpose of the review is to ensure the logical, consistent categorization of investment funds and to maximize the similarity of investment strategies and risk-return profiles within each category. Categories should have a sufficient number of funds to allow for meaningful comparisons and rankings within the category.

On November 1st, 2023, the committee submitted a proposal to create new U.S. Dividend & Income Equity and Global Dividend & Income Equity categories. Following a 30-day comment period and subsequent revision of the proposal, the committee voted to accept the revised proposal on February 1st, 2024. The results follow. Approved changes are effective March 31st, 2024, and will be reflected in the release of March 2024 month-end data.

1. New category: U.S. Dividend & Income Equity

Category Definition:

Funds in the U.S. Dividend & Income Equity category must have a stated mandate to invest primarily in income-generating securities and must invest at least 90% of their equity holdings in securities domiciled in the United States. In addition, these funds must invest at least 50% of their non-cash assets in income-generating securities such that the 3-year weighted average yield on the equity component of the fund's portfolio is above 1.15x the 3-year weighted average yield of the S&P 500 Index. The fund's average capitalization must exceed the U.S. Small/Mid Cap Equity threshold.

A list of funds that would potentially qualify for the new category can be found in **APPENDIX A**.

2. New category: Global Dividend & Income Equity

Category Definition: Global Dividend & Income Equity

Funds in the Global Dividend & Income Equity category must have a stated mandate to invest primarily in income-generating securities and must invest more than 10% and less than 90% of their equity holdings in Canada or the U.S. In addition, these funds must invest at least 50% of their non-cash assets in income-generating securities such that the 3-year weighted average yield on the equity component of the fund's portfolio is above 1.15x the 3-year weighted average yield of the MSCI World Index. The fund's average capitalization must exceed the Global Small/Mid Cap Equity threshold.

A list of funds that would potentially qualify for the new category can be found in **APPENDIX B**.

An adjusted update to the CIFSC flow chart is included in **APPENDIX C**, outlining how the committee plans to test for qualification into the categories.

APPENDIX A

The following is a final list of funds that would potentially move to the **U.S. Dividend & Income Equity** category. Funds that will be affected by the change will be notified and given the opportunity to dispute if necessary.

Fund Name	Current Category
BMO Covered Call U.S. High Dividend ETF Fund	U.S. Equity
BMO U.S. Dividend Fund	U.S. Equity
BMO U.S. Dollar Dividend Fund	U.S. Equity
BMO US Dividend ETF	U.S. Equity
